

DOUG ROGERS

The literature is very clear that the younger a child starts (using drugs), the more likelihood they are going to have a problem as they get older.

~ Doug Rogers, Substance Abuse Prevention Counsellor

Do you agree with the statement? Why or why not?

What ages do you think Doug Rogers is referring to? What makes you believe that?

What drugs do you think are being referred to in the quote? Why do you believe that?

Does the type of drug matter? Why or why not?
